(Botanic Blood Balm.)

The great Blood Purifier and Tonic. It cures Scrofula, Kidney Troubles; Catarrh, Skin Humors, Rheumatism, Eruptions, Boils, etc., and is a wonderful tonic.—For sale by Barnes & Northcraft.

Found by Accident.

Baltimore, Md., January 28th, 1887.
I have been a sufferer for six years with Catarrh, Ulcerated Sore Throat and Rheumatism of the Chest, from blood poison. About four weeks ago I was passing the Botanic Blood Balm store, No. 8 North street, Baltimore. I went in and consulted your agent about my case. He gave me one of your B. B. B. "Book of Wonders," which I read. I called in a few days and got a bottle of your Botanic Blood Balm—B. B. B. I am now on the third bottle and will say that I have felt a marked improvement since the third day after commencing to use your medicine. I now have no trouble with my throat, and have improved so much every way that I am satisfied that by the use of your medicine I will soon be all right.

I have taken many and some good prescriptions and medicines for this trouble, but I think your B. B. B. is the best remedy I have had, and I cheerfully recommend your "Botanic Blood Balm" to the public as the quickest and best blood remedy I have found, after six long years of search for health. Very respectfully yours,
J. M. FLOWERS,
210 Simmons Alley, Jersey City, N. J.

CONSUMPTION CURED.

An old physician, retired from active practice having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung affections, after having thoroughly tested its wonderful curative powers in thousands of cases, feels it his duty to make known to his suffering fellow men. This recipe sent free to all who may desire it with full directions for preparing and successfully using. Add five cents, with stamp, naming this paper, to M. E. CASS, 210 Grand St., Jersey City, N. J.

Rebecca Wilkinson, of Brownsville, Ind. says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I had been doctoring constantly with no relief. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy; a few bottles of it has cured me completely. Consider it the grandest medicine in the world. A trial bottle will convince you. Price 15 cents. Sold by J. M. Gleason, druggist, Abilene.

THE MODERN
DAVID AND GOLIATH.

The old Bible story of David and Goliath is as true to life today as it was 5,000 years ago. It is the same old story, of the big bully boasting in his strength and defying all who come in his way, until at last he meets his match, in a despised, because smaller, adversary. The Goliaths of today boast of their many thousand dollars' worth of Boots and Shoes, the large space they occupy and the princely style they have of doing things, etc, never mentioning the great expense connected therewith, but levying a tax on each customer to cover high rents, careless, reckless buying and luxurious living. The David of today can be found one door north of the Benefit, on Broadway, cutting and slashing prices on Boots and Shoes.

Come and see the modern David and buy Boots and Shoes cheaper than you ever did before.

The Reflector.

THURSDAY, APRIL 4, 1889.

How the boys will hustle for Ryan's place in the Fourth district! We don't blame them, it's worth hustling for.

More than seven long months yet before another election. It will, however, be a lively contest when it comes.

April's holidays foot up as follows: Election day, 2d; Arbor day, 11th; Easter, 21st; Inauguration anniversary, 30th.

And now Italy is taking advantage of South America's hospitality to shuffle off her pauper emigrants on Brazil. Better Brazil, though, than the United States.

The new constitution recently adopted in New Hampshire provides that no person shall be eligible to citizenship who cannot read the constitution in English and write his name.

The Kansas Farmer advises its readers to get along without twine in view of the twine-makers' combine, and says they can do it if they will work as hard as the twine swindlers have done.

Frank MacLennan coins the word "Kansafisy." Frank's forte is evidently dictionary making. He would invent some stunner that would "make Quintilian stare and gasp," and "Kansafisy" would be one of them.

Chas. H. Pattison, Solomon's rustling young Republican, is an active aspirant for the position of deputy collector for this revenue district. Mr. Pattison is a conspicuous representative of the young Republicans of Kansas and deserves recognition.

The story of the Denver bank robbery recalls the days of Jesse James except that the robber had a thousand times more nerve than Jesse could have laid claim to. If the occurrence actually took place as related, it was one of the most skillful pieces of work on record.

The frightful disaster at Samoa will call attention once more to that much-advertised section of the globe. As Germans and Americans seem to have suffered in about equal numbers there will be no reason to think that either nation was, on this occasion, especially favored by the gods.

K. C. Gazette: We would like to be in a balloon on the 22nd of April and be slowly wafted over Oklahoma. We would see more town lot stakes driven before night, than stakes indicating the potato patch, and every other tent would have a real estate agent's shingle hanging out. We would see many a list and skull scrap, with now and then the sharp crack of the nimble revolver, a rough pine box and a hole. Yea verily! Graves will be as plenty as gopher hills.

Oklahoma's Size.
Few people realize the actual size of the much-talked-of Oklahoma country. Many seem to think from the prominence given the country that it is some what similar to Russia or South America in the extent of its territory and that "Uncle Sam is rich enough to give us all a farm" therein.

It is almost exactly three times as large as Dickinson county, which contains 544,640 acres. The land opened to settlement April 22, comprises 1,887,800 acres.

This will afford a claim of 160 acres to each of 11,798 settlers. Making allowance for town sites and waste land, it is estimated that only 10,000 homesteads can be entered in Oklahoma. As there are 20,000 prospective settlers now said to be waiting on the border of the promised land, it is evident that somebody must be disappointed. Ample provision is made for town sites under the existing law, so that speculators will be afforded an opportunity to disport themselves. The towns which will be built will doubtless give homes and occupation to more than double the number of persons who can be accommodated with homesteads. An estimate is made that 50,000 people will be in Oklahoma within six months from the date of opening.

It may not be generally known that the last legislature passed a tree-culture law, by which county commissioners are authorized to offer bounties for planting and growing timber. It reads as follows:

"That it shall be lawful for the board of county commissioners in any county in this state to offer a bounty to any person in said county who shall hereafter plant one or more acres of land with forest trees, and properly cultivate the same for five years, in any sum not to exceed ten dollars, for five years; for each acre so planted and cultivated: Provided, that trees so planted shall not be at a greater distance than ten feet apart each way, and shall be kept in a live, thrifty, growing condition for at least five years after being planted before said bounty shall be due and payable; and provided further, that the provisions of this act shall not apply to lands held as timber culture entries under any of the timber culture laws of the United States."

Halstead's Rejection.

Six years ago next fall the Ohio legislature was carried by the Democrats. Geo. H. Pendleton was then a U. S. senator from that state and was a candidate for re-election. Pendleton was not only the recognized candidate of the Ohio Democracy, but until after the election no other name was mentioned by the Democratic press or the Democratic representatives.

Shortly after the election Henry B. Payne became a candidate and in January thereafter was elected.

The Pendleton Democrats who represented the better element, charged with one voice that Payne's election was brought about by the most open, unblushing and notorious bribery and corruption. The Republicans of Ohio made the same charge. So general was the belief that Payne had bought his way into the senate, that the Republicans made this charge their battle cry two years thereafter and carried the legislature by a large majority. Investigation was made by that legislature and overwhelming evidence sustaining the truth of these charges against Mr. Payne was produced, and the legislature, reciting these facts, passed a resolution calling the attention of the United States senate to the charges and the evidence supporting them, and asking the senate to investigate Senator Payne's election.

Strange to say, the senate refused to make the investigation. It was evident that if the investigation was had Mr. Payne would have to leave the senate in disgrace.

The son of Senator Payne, Col. Oliver Payne, of Cleveland, was then and is now the head and front of the "Standard Oil Co."

The Payne family is enormously rich, and there is not a fairly well informed man anywhere who does not believe that his money held his seat for him in the senate the same as money had secured it for him from the Ohio legislature.

Murat Halstead believed this. He is a brave, fearless, honest man; he has a keen pen and being at the head of a great daily paper he sharply criticised the senate for its want of action in this matter; his language was severe; he called bribery, bribery; he called corruption, corruption; especially did he flail the Republican senators for their support of Senator Payne; and now these same senators, purely upon personal grounds, seek to punish Mr. Halstead.

John J. Ingalls and Preston B. Plumb voted against the investigations of Senator Payne and also against the confirmation of Mr. Halstead.

In each instance they misrepresented Kansas. They threw the tremendous weight of their great influence upon the side of bribery and corruption.

Why should a senator from Kansas make such a blunder, yes, such a double blunder? Most Kansas furnish representatives for the Standard Oil Co. in the United States senate?

The REFLECTOR has ever been ready and anxious to sing the praises of our senators and now, as their true friend, we propose to say bluntly to them, we have been guilty of a great wrong.

Another thing, you must hasten to repair this wrong.

The people of this state will not stand it.

Bill Hackney scored you, gentlemen, because you could not get a few offices for Kansas.

The REFLECTOR says, that is a small offense compared to this one. It matters but little comparatively who fills the office, but it is a matter of grave concern to every Kansan, when it must be confessed that our representatives in that august body, the United States senate, dare, in open daylight, to become the defenders and protectors of bribery and corruption in high places.

A careful estimate places the number of copies of Robert Elmsere sold at 436,000. The book was first issued March 24, 1888.

Mrs. Fuller, wife of the chief justice, has gone from Washington to Chicago to forgive her eloping daughter and bless her son-in-law. A woman with six daughters certainly ought to regard the first son-in-law with some complacency.

With the sad fate of Field Marshal Halstead before him the editor of the REFLECTOR respectfully requests that his name be not sent to the United States senate for a first-class mission. The "truly good" of the newspaper fraternity cannot afford to take any chances.

The truth of the rumor that the Pope may take up his residence in the United States has been denied. The income of His Holiness during the past year amounted to \$2,500,000, of which but \$1,700,000 was spent in supporting his establishment. This does not include \$2,400,000 received in money and presents during the jubilee year. His Holiness probably abandoned the idea of moving to this country on account of the high cost of living here.

A grand co-operative prairie fire is the plan the Dickinson county farmers mean to employ to kill the chinch bugs. A meeting of farmers is being held at Manchester, Kansas, today, to make arrangements for the "horrible holocaust."—[State Journal.]

Go away from home to learn the news. The Dickinson county farmers are to join forces but not in a co-operative fire expedition. This is no prairie county; a fire couldn't go one hundred rods without being stopped by a well-tilled field. The "co-operation" will come into use in a farmers' institute.

Globe Democrat: The fact that a number of British capitalists are about to form a syndicate, with \$500,000,000 capital, to control all the coal mines in England, is taking away the breath of the American free-trade editors. When Mr. Blaine, about eight months ago, said that England was plastered all over with trusts, the Democrats declared that the statement was false. They have found out since then, however, that the Maine statesman's utterance was true, although few of them have the honesty to acknowledge it. The fact is the trust scheme is one of forms of the combination and aggregation spirit which is manifesting itself in nearly every productive enterprise, in all countries, free trade as well as protectionist.

"NED WILSON."

The attention of breeders and farmers is called to the fact that the Fast Trotting Stallion,

"NED WILSON,"

has been secured to make the season at the following places: Mondays at the farm of J. H. Avery, in Logan township, Marion county; Tuesdays at Durham, Wednesdays at Kimbrough, on the farm of R. B. Gardner; Thursdays at Carlton; Fridays at Gypsum City; and Saturdays at Roxbury.

"Ned Wilson" was foaled May 8, 1882. He is a fine mahogany bay, 16 1/2 hands high, weighs, in good condition, 1,800 pounds. Has good eyes, nicely formed head and very intelligent countenance, deep sloping shoulders, good back, with fine quarter and stifle. Large flat legs, finished with a good set of feet. Has a good disposition and is so tractable and gentle that a lady can drive him with perfect safety. He is a grand, good looking, a sure foot getter and a sound foal getter.

PEDIGREE.

He was sired by Bob Ingersoll, pacing record, 2:24, trotting, 2:41. Bob Ingersoll is descended from the renowned old Justin Morgan. His dam, Lady Clara, was sired by the famous Hambletonian Melanias, he by Rysdyk's Hambletonian, the founder of the Hambletonian family of trotters. Melanias sired: Bompe, 2:34 1/2; Cleora, 2:38 1/2; Patsy; Harry Palling, 2:34 1/2; Maggie F., 2:21; Silver Leaf, 2:25.

"Ned Wilson" has a record of 2:36, and with proper training could be made to lower that record. Some of his colts have become very fast trotters. You are invited to see him before making other arrangements.
